Patient Navigation in Cancer Care

Guiding patients to quality outcomes™

You Are Not Alone

This is a difficult time for you.

*You may have questions and concerns
about your health.*

You also may need help getting the care you need.

We want to tell you about our patient navigation program. A patient navigator is here to help you through this time. This person will try to make sure you get the support and help you need. We want to make sure you get the best care possible.

The Patient Navigator Can:

- Guide you through the health care system
- Help you fill out insurance forms
- Help you identify financial assistance sources
- Direct you to health care services for further diagnosis and treatment
- Direct you to local resources and support
- Help you keep track of and find ways to get to your appointments
- Help you get your questions answered
- Help you find more information on health care

The Patient Navigation Program Will Benefit You Through:

- Improved and more timely access to health care services and information
- Fewer delayed and missed appointments
- Increased satisfaction with your health care experience

Who We Serve

The Patient Navigation Program at Casa Esperanza serves Casa Esperanza residents. However, we do accept outside referrals and are available to help patients who are not Casa Esperanza residents connect to other resources within their cancer treatment center or in the community.
